Backend Development: Node, Express, GraphQL, REST APIs

Databases: PostgreSQL, MySQL, Prisma, Sequelize

Other Tools & Technologies: AWS, Heroku, Vercel, Render, Railway, Shopify, Microsoft Office Suite

EXPERIENCE

Lead Software Engineer

January 2024 - December 2024

MakeMine

Charlotte, NC

- Led the development and maintenance of a suite of proprietary applications, ensuring they met the evolving needs of both clients and internal administrators.
- Spearheaded the migration of the codebase from Vue 2 (class components) to React, improving scalability, maintainability, and developer efficiency.

Software Engineer

October 2019 - January 2024

MakeMine

Charlotte, NC

- Designed, prototyped, and developed new features for a growing suite of applications, contributing to the platform's evolution over time.
- Researched and implemented new technologies to address emerging needs and optimize system performance.
- Integrated third-party services and APIs to enhance functionality, ensuring seamless interoperability across applications.

Shipping & Printing Assistant

August 2017 - March 2019

Evermine – The Williamson Group, Inc

Portland, OR

- Operated Konica Minolta production press and assembled customer orders.
- Effectively collaborated with a team to create success during peak seasons of production, ensuring high-quality products delivered in a timely fashion.
- Assisted in the implementation of a new printing system.
